

### **DESCRIPTION**

PREMUS CA is an anhydrous calcium thickened premium quality lubricating grease, adherent and water resistant with excellent mechanical stability suitable for the lubrication of mechanisms operating in harsh environments (water, sludge, dust, etc.).

## **APPLICATIONS**

The thickener, together with the base oil blend, makes the product suitable for marine applications and as a universal grease for forestry, agricultural and construction vehicles, chassis, axles, conveyors, port cranes, joints, couplings etc.

## **CHARACTERISTICS-BENEFITS**

CHARACTERISTICS	BENEFITS
Extremely water resistant which allows use on all equipment operating in presence of humidity, water and sludge.	Long service life.
Excellent affinity towards metal surfaces.	Versatile in use.
Very good protection against rust and corrosion.
